Hiring Manager

Company Name

Dear Hiring Manager,

Dear Hiring Team,

I am writing to express my strong interest in software development opportunities. With a Bachelor of Science in Computer Science from Texas State University and hands-on experience as a Junior Software Developer at OHEL TECHNOLOGIES and as Founder & Lead Software Engineer at ATC WEB SOLUTION, I bring a robust skill set in full-stack development, AI/ML engineering, and cloud deployment.

My professional experience includes implementing asynchronous Python pipelines to reduce agent turnaround time and improve throughput under load, and optimizing resource usage on Google Cloud Platform, which resulted in a ~20% reduction in operational costs. I am proficient in building LLM-powered agents for document interpretation and information extraction, and I developed prompt-engineering frameworks that reduced error rates by >40%.

I have a proven ability to deliver high-quality full-stack applications using React (JavaScript), Node.js, and HTML/CSS, deploying them via Google Cloud App Engine. My work at OHEL TECHNOLOGIES also involved contributing to test automation initiatives using Python's Pytest, cutting defects by 25%.

My technical expertise spans Python, React, Flask, Node.js, SQL, NoSQL, Git, Docker, and Google Cloud Platform. I am authorized to work in the U.S. for any employer (W2).

Thank you for considering my application. I am eager to contribute my skills and passion for technology to your team.

Sincerely, Adalberto Teran Castillo

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your team.

Adalberto Teran Castillo

Junior Software Developer
